

# Maximus 82 Super Gloss & Flow - Zero VOC Reducer

For use in Solventborne coatings such as Ellis MAXIMUS 4400 Series Solventborne Enamel.

**Add Maximus 82 Super Gloss & Flow – Zero VOC Reducer** to solventborne coatings to enhance the gloss and color as well as provide easy flow and workability.

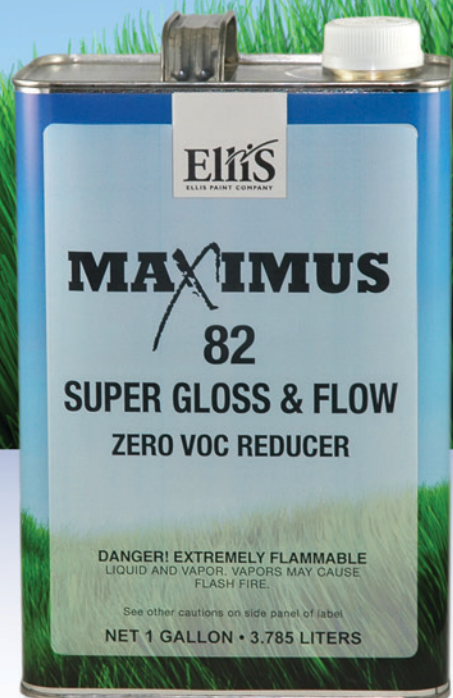

Directions for Use: Reduce the coating to the desired viscosity. The product is now ready to use.

The addition of **Maximus 82 Super Gloss & Flow – Zero VOC Reducer** will not increase the VOC of the coating.

**Maximus 82 Super Gloss & Flow – Zero VOC Reducer** is an excellent product for

- Thinning of Solventborne Coatings
- Surface Cleaning & Preparation
- Solventborne Paint Equipment Cleaning
- Repair & Maintenance Cleaning

Maximus 82 Super Gloss & Flow – Zero VOC Reducer is available in Gallons and Fives.
